

Cameron Carpenter

Revenue Operations | Performance Marketing | Marketing Analytics

Chicago, IL · cam.carp14@gmail.com · (608) 239-5304 · camcarp.com · linkedin.com/in/cameroncarpenter1

SUMMARY

Revenue operations and performance marketing professional who has managed \$75M+ in media investment since 2023 across healthcare, retail, and logistics. Builds the forecasting, pacing, attribution, and reporting systems that connect advertising, analytics, and CRM data to pipeline and revenue outcomes, and translates complex performance data into clear decisions for senior stakeholders. Applies AI tooling throughout to expand the scope a single analyst can own.

EXPERIENCE

Ovative Group — *Senior Analyst, Search Engine Marketing · Chicago, IL* **Jun 2023 – Present**

- Owned budget forecasting, pacing models, and weekly performance analysis for six healthcare business units under a Fortune 500 payer, a national retail brand, and a global logistics provider; presented quarterly business reviews and strategic roadmaps to senior stakeholders, built in partnership with SEO, paid social, video, programmatic, and measurement teams.
- Reversed declining efficiency on a national retail brand, cutting spend 13% YoY while growing revenue 5% and improving ROAS 20%, then redirected the savings into more incremental tactics across the portfolio.
- Drove a 175% YoY increase in enrollments for a national Medicare insurance marketplace during AEP through broader qualified reach, campaign restructuring, and rebuilt conversion pathways tied to pipeline and revenue goals.
- Designed conversion tracking and bidding architectures that optimized campaigns toward lead quality rather than raw volume, then translated the technical design into business terms for non-technical client leadership using call-quality conversion data, value-based bidding frameworks, and KPI hierarchies tied to pipeline and revenue.
- Built automated reporting, pacing, and forecasting systems solo leveraging AI tools; adopted by multiple client teams, saving 300+ hours per quarter, with built-in data-integrity checks that caught broken conversion tracking and understated platform spend before either reached client deliverables or bidding algorithms.
- Became a go-to resource on lead generation and AI workflows within the SEM team, authoring trainings and enablement materials, coaching junior analysts on several accounts, and guiding a summer intern through a self-authored 13-week curriculum.

Zero To Secure — *Founder · Chicago, IL* **Jul 2025 – Present**

- Built a bootstrapped DTC e-commerce brand end to end as a solo operator, owning product positioning, custom Shopify theme development, SEO content strategy, and go-to-market execution.
- Built AI workflows spanning storefront development, SEO content production, and lifecycle email to operate at multi-person output, shipping an 8-lesson educational curriculum and a post-purchase retention sequence.

AbbVie — *Strategic Initiatives Analyst · North Chicago, IL* **Mar 2022 – May 2023**

- Supported the \$63B AbbVie–Allergan enterprise integration within a highly matrixed organization, resolving cross-functional process bottlenecks and administering a 2,400-user project platform.
- Created reporting tools that gave integration leadership clearer visibility into workstream status and risk.

EDUCATION

University of Wisconsin–Madison — Bachelor of Business Administration; double major, Marketing and Risk Management & Insurance **May 2023**
