## SUMMARY

Performance marketing professional who has managed **\$75M+ in media investment** since 2023 across healthcare, retail, and logistics. Operates as channel lead on enterprise accounts with manager-level ownership: sets strategy, drives execution, and guides client stakeholders toward decisions that improve business outcomes rather than platform metrics. Hands-on Invoca practitioner who uses call-quality and spoken-phrases signals to move healthcare programs from raw volume toward qualified lead outcomes. Uses AI tooling to expand the scope a single analyst can own.

## EXPERIENCE

**Ovative Group | Senior Analyst, Search Engine Marketing**, Chicago, IL **Jun 2023 - Present**

- Operate as channel lead with manager-level ownership across seven healthcare business units under a Fortune 500 payer, a national retail brand, and a global logistics provider; present weekly to 12+ client stakeholders, run quarterly business reviews, lead syncs with Google, Microsoft, and Invoca partner teams, onboard new retail and healthcare clients, and drive strategy that moves business outcomes, not platform metrics.
- Modernize healthcare programs from raw-volume optimization toward qualified outcomes by designing conversion-action architecture and Value-Based Bidding around Invoca call-quality and spoken-phrases signals, then translating the design into revenue-tied KPI hierarchies that non-technical client leadership could act on.
- Drove a **175% YoY increase in enrollments** for a national Medicare insurance marketplace during AEP through broader qualified reach, campaign restructuring, and rebuilt conversion pathways, with results that earned **\$5M in incremental client investment** on \$30M+ in AEP spend.
- Led the SEM workstream for a new healthcare provider program from planning through launch, owning strategy, campaign structure, conversion and bidding approach, build QA, and reporting tied to qualified calls and appointments.
- Reversed declining efficiency on a national retail brand, **cutting spend 13% YoY while growing revenue 5% and improving ROAS 20%**, then led the account's migration off SA360 without performance disruption.
- Built automated reporting, pacing, and forecasting systems solo leveraging AI tools; now adopted by multiple client teams and **saving 300+ hours per quarter**, with built-in data-integrity checks that caught broken conversion tracking and understated platform spend before either reached client deliverables or bidding algorithms.
- Coach and lead two analysts on the healthcare accounts, directly managed a summer intern through a self-authored 13-week curriculum that resulted in a return offer, and serve as a go-to resource on the SEM team for lead generation and AI workflows, authoring trainings and enablement materials.

**Zero To Secure | Founder**, Chicago, IL **Jul 2025 - Present**

- Founded and run a bootstrapped DTC e-commerce brand as a solo operator, owning product positioning, Shopify theme development, SEO content strategy, and go-to-market execution, using AI workflows for multi-person output.

**AbbVie | Strategic Initiatives Analyst**, North Chicago, IL **Mar 2022 - May 2023**

- Supported the \$63B AbbVie-Allergan enterprise integration, resolving cross-functional process bottlenecks and building reporting tools that gave integration leadership clearer visibility into workstream status and risk.

## EDUCATION

**University of Wisconsin-Madison**, Madison, WI

**May 2023**

Bachelor of Business Administration, Double Major: Marketing, Risk Management & Insurance
