Cameron Carpenter

Solutions Consultant | Applied AI | Technical Discovery | Client Strategy

Chicago, IL | cam.carp14@gmail.com | (608) 239-5304 | camcarp.com/work | linkedin.com/in/cameroncarpenter1

SUMMARY

Client-facing consultant who leads discovery, answers objections, then builds and deploys the technical solution. Day-to-day client lead across 20 accounts and $75M+ in media since 2023, now running nine. Builds production conversation-intelligence workflows: Claude skills that categorize ~1,000 calls a week for one client, backed by golden datasets, LLM-as-judge scoring and human review.

EXPERIENCE

Ovative Group | Senior Analyst, Search Engine Marketing Chicago, IL | Jun 2023 – Present

Channel lead and day-to-day client contact for nine accounts: a Fortune 5 payer's seven healthcare business units and two logistics accounts. Present weekly to 12+ client stakeholders and run QBRs and lunch-and-learns that build program buy-in.

Client Leadership and Results

- Set client roadmaps and ran their execution, delegating across analysts and owning outcomes, including a new healthcare provider's SEM launch.
- Drove a 175% YoY enrollment increase for a national Medicare marketplace during the Annual Enrollment Period (AEP). Results earned $5M in incremental investment, bringing AEP spend to $35M. Owned the full forecast and budget plan in other AEPs.
- Led new-account discovery, handled objections with data-backed rebuttals and pitched incremental budget to decision-makers.
- Designed Value-Based Bidding around call-quality signals, moving healthcare programs from raw call volume to qualified outcomes with revenue-tied KPIs for non-technical client leaders. Kept AEP campaigns compliant with CMS-approved copy.
- Reversed declining efficiency for a national retail brand, cutting spend 13% while growing revenue 5% and ROAS 20%, then led its migration off SA360 without disruption.
- Implemented Invoca spoken-phrase tracking with Invoca's engineers. Piloted Google betas alongside Google, Microsoft and Invoca reps.

AI Systems

- Cut call analysis from 45 minutes to 5 per run across ~1,000 weekly calls for one client with Claude skills that join call, tracking and ad data through MCP connectors into client-ready insights.
- Built the evaluation layer behind those skills, testing every version with golden datasets, rubrics and LLM-as-judge scoring.
- Built a low-code workflow tool that turns flowcharts into Claude skills, cutting build time from hours to ~30 minutes.

Team Leadership and Enablement

- Led a direct report and three analysts, cutting review time 50% with a Claude tool that critiques their draft reasoning.
- Deployed AI reporting, pacing and forecasting automations to 5 analysts across 10+ accounts, saving 300+ hours a quarter.
- Wrote the team's guides on analysis and reporting, and helped a junior analyst build a first Claude tool for budget forecasting.
- Managed a summer intern through a self-authored 13-week curriculum that earned a return offer.

Zero To Secure | Founder Chicago, IL | Jul 2025 – Present

- Founded and run a bootstrapped DTC brand solo, owning Shopify development, SEO content and go-to-market, with AI agents for organic growth and creator outreach behind a human approval step.

AbbVie | Strategic Initiatives Analyst North Chicago, IL | Mar 2022 – May 2023

- Supported the $63B AbbVie-Allergan integration, resolving cross-functional bottlenecks and building reporting tools that gave leadership visibility into workstream status and risk.

PROJECTS

Medicare Enrollment Call Evaluation Pipeline | Personal project, synthetic data

- Python pipeline that grades synthetic Medicare sales calls on compliance, eligibility and plan accuracy.
- LLM-as-judge and rule-based checks calibrated against a blind-labeled answer key, with a written eval readout.

Call Analytics MCP Server | Personal project, synthetic data

- MCP server that lets Claude query graded calls, grade new ones through the pipeline and draft offline-conversion batches. Releasing a batch requires human approval, enforced in code rather than the prompt.

EDUCATION

University of Wisconsin-Madison | BBA, Marketing and Risk Management & Insurance May 2023

SKILLS

- **Client:** Discovery, Objection Handling, QBRs, Roadmap Execution, Project Management, Client Enablement
- **AI:** Claude (Enterprise, Code), Agent Skills, MCP, Evals (Golden Datasets, LLM-as-Judge), Human-in-the-Loop Design
